## COMMERCIAL PRODUCTS GROUP EXPANDS MANUFACTURING AGAIN

Sean Steimle, Vice President of Commercial Products Group of Hart & Cooley, Inc., is proud to announce that CPG is expanding their manufacturing capabilities in Illinois. Steimle said that “in 2008, we expanded our manufacturing and distribution with additional locations in the southeast and western United States to better serve customers in those areas.

Now, it is time to expand our capabilities at our home base in the Chicago area.” In order to accomplish the expansion, it was actually necessary to relocate to a 500,000 sq. ft. building to accommodate the many products manufactured by CPG in the Chicago area. Steimle also commented that “demand for our products continues to increase as contractors seek long-lasting methods of quality construction while at the same time saving on expensive field labor. In just the past three years, our business has quadrupled.” The new facility is located in the Chicago suburb of Carol Stream at 815 Kimberly Drive. Telephone, 800/624-8642, and fax, 866/466-9335, remain the same.

The Commercial Products Group of Hart & Cooley, Inc. is currently headquartered in Bensenville, Illinois, with operations across the country. Commercial Products Group manufactures the well-known and respected brands of AMPCO, heatfab, Milcor, Portals Plus, Roof Products & Systems, Selkirk, and Ward Industries.
