**Carlisle SynTec Systems Names J.L. Adler Roofing & Sheet Metal, Inc.
to 2017 Perfection Council**

(CARLISLE, PENNSYLVANIA) – Carlisle SynTec Systems, a leading manufacturer of single-ply roofing materials, has named J.L. Adler Roofing & Sheet Metal, Inc. to its 2017 Perfection Council. Selected because of their history of flawless roof installations and excellent warranty claim performance, J.L. Adler Roofing & Sheet Metal is one of only 38 contractors in North America who received an invitation to Carlisle’s 2017 Perfection Council.

As a Council member, J.L. Adler Roofing & Sheet Metal will serve on an advisory board that helps Carlisle determine how to best support its contractors throughout the upcoming year.

“It is a pleasure to recognize contractors whose highest priority is providing exceptional workmanship on each and every roofing project,” said Nick Shears, Carlisle’s Executive Vice President of Sales and Marketing. “Because J.L. Adler Roofing & Sheet Metal shares Carlisle’s commitment to excellence, their input is invaluable in improving contractor support programs,” Shears continued.

To qualify for Carlisle’s Perfection Council, contractors must complete a minimum amount of warranted work and number of jobs per year. Council members are then selected based on installation quality, warranty claim performance, and commitment to ongoing training.

About Carlisle SynTec Systems: Carlisle SynTec Systems, headquartered in Carlisle, Pa., has been manufacturing single-ply membrane roofing systems for more than half a century. Carlisle SynTec Systems is a business segment of Carlisle Construction Materials, LLC, and has manufacturing facilities in Carlisle, Pa.; Greenville, Ill.; Senatobia, Miss.; and Tooele, Utah.
