RUNNION EQUIPMENT NOW DISTRIBUTES DUR-A-LIFT AERIAL LIFTS Includes Telescopic and Articulating Aerial Lifts, Plus Parts, Service and Rentals

Lyons, IL (December 9, 2011) – Runnion Equipment, Inc. is pleased to announce that the company now offers the complete line of Dur-A-Lift aerial lifts. The line includes telescopic aerial lifts that can be mounted on a cab, chassis, or van, articulated aerial lifts, telescopic articulating aerial lifts, and material handling articulating aerial lifts. Parts and service for the aerial lifts are also available, and several models are on hand to rent.

“As a new Dur-A-Lift distributor, we are pleased to be able to offer our customers the versatility and dependability of the Dur-A-Lift line of bucket lifts,” says Pat Runnion, president of Runnion Equipment. “The addition of Dur-A-Lift to the Runnion stable of equipment nicely rounds out our line-up of top quality brands.”

The Dur-A-Lift aerial lifts are engineered for maximum durability and minimal maintenance. With working heights up to 49’ and side reaches up to 30’, the Dura-A-Lift aerial lifts are used by a variety of industries, including building contractors, roofers, telecommunications, and utilities. Greasing is minimized with Teflon coated and fiberglass reinforced ball bearings. Baskets are available to accommodate weights up to 600 pounds.
